

Paraclipse® 250503 Insect Inn Ultra I

Customers will see a beautiful scone and soft light. Unit keeps your establishment safe and free from flies carrying diseases such as Salmonella and E.coli .

They'll never realize it is actually a highly effective commercial fly control system. The patented auto-advance cartridge lasts 60 days and will capture thousands of flies. Available in one-or-two lamp models, this wall mounted unit meets all USDA and FDA guidelines.

FEATURES

- Draws flying insects to trapping surface and keeps them trapped.
- Attracts large quantities of flying insects to traps.
- Increases the outward reflective power of the UV lamps.
- Directs light out and down to increase overall effectiveness.
- Helps direct UV light downward to attract more flies.
- Cartridge holds 10 times the capacity of a glue board. The auto advancing cartridge system rolls the trapped flies inside the cartridge so you never handle the fly covered trapping surface.
- Eliminates large quantities of flies.
- Flies quickly caught during random flight near the lamp.
- Audible alert to replace used cartridge.
- Looks like a decorative wall scone.
- Meets USDA & FDA guidelines.
- Unit keeps your establishment safe and free from flies carrying diseases such as Salmonella and E.coli.

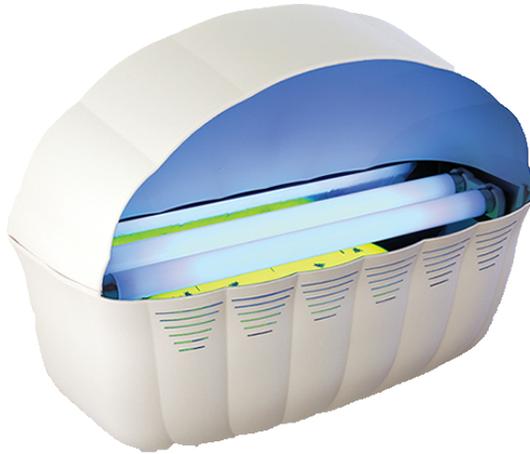

Approved Model:	250503 Insect Inn Ultra I
Dimension:	46 cm x 38 cm x 17 cm
Electrical:	220/240v 50/60 Hz, IEC Receptacle
Weight:	2.26 kg
Coverage (Line of Sight):	Up to 232 square meters
Cartridge Surface Area:	0.37 square meters
Lamp Life:	Approx. 8 Months
Ultraviolet (UV) Lamp:	15 Watts (360-380nm)
Capacity:	Over 2,000 Flies
Construction Material:	High Impact Polystyrene
Manufacturer Warranty:	1 Year
Agent in GCC:	MGK (www.mgk.ae) Tel No.: 04-3968264
