## Letter of Appreciation

Dear Ladies and Gentlemen,

In 2015 we opened our new cleanroom facilities within the research cluster Pharmapark Jena - Germany. To ensure sterile environment for our research we trust PURION UV-technology. Especially we use AIRPURION UV-plants to disinfect air and surfaces.

We are very satisfied regarding quality and effectiveness of the AIRPURION UV units and would recommend it to every hygiene manager/ engineer.

We also would like to thank the PURION team for their valuable consulting effort.

Best Regards

Rolf-Uwe Wehowsky  
Dipl.Ing (FH) Elektrotechnik

## Letter of Appreciation

### To Whom May it Concern

We are using the PURION UV technology to ensure chemical free disinfection in fridges and counter fridges.

We are very happy regarding the reliability of the PURION products and the flexibility for customizing according to our requirements.

We really recommend PURION UV technology for any purpose in regards chemical free disinfection.

We thank the PURION team for the effort and excellent service.

Best regards

i. V. Ute Rassau

## Appreciation Letter

To Whom May it Concern,

Since several years PURION supplies us with AIRPURION active units and UV Sets (>1000 pcs.) for UV based disinfection.

To use PURION UV technology has been an excellent decision - our major applications are:

- disinfection of conveyor bands / styrofoam boxes in food packaging industry (e.g. fish preparation)
- chemical free disinfection of grain silos

We want to express our thanks to PURION for their support and flexibility to customize solutions according to our requirements.

We have no hesitation in strongly recommending PURION UV technology to anyone in the food industry and agriculture. We are pleased to confirm our 120% satisfaction with the ongoing support and service.

Best regards

  
Pernille Snitkjær
