

# icePad

Chill Trays

**Technical Information**

Keep in your freezer for 4 hours and the icePad keeps your food chilled at approximately 6-7 celsius for 3 hours.

- ❄️ Outside catering
- ❄️ Ideal for functions, no ice needed!
- ❄️ Serve your food safe everywhere.
- ❄️ Food stays cool and presentable.
- ❄️ No more sweating breakfast items.

**How does your icePad work?**

- ❄️ After freezing, the icePad Chill Tray will remain at temperature below +7 degrees celsius for at least 3 hours.
- ❄️ Chilled food must maintain a temperature of maximum +7 degrees celsius to avoid increased bacteria growth and deterioration in taste and quality.
